

Carl Rush

Carl Rush joined the Enerkem Board of Directors in February 2012.

Mr. Rush is Senior Vice President of Organic Growth for Waste Management, where he is charged with finding growth opportunities that leverage the company's current asset base. On February 13, 2010, Mr. Rush joined the company's senior leadership team. Waste Management, based in Houston, Texas, is a FORTUNE 200 company. Mr. Rush joined Waste Management in 2001 as Director of the In-Plant Services Group, now called Sustainability Services. After several years serving in that role, he became Vice President of Sustainability Services in early 2005, and a year later accepted the position of Vice President of Organic Growth.

Over the years, Mr. Rush has overseen the development of several business opportunities for the company. Some of these include partnering with Linde North America to convert landfill-gas into liquefied natural gas (LNG), partnering with S4 Energy Solutions to expand plasma gasification technology, and founding a new organics offering with Harvest Power.

Before joining Waste Management, he was President and CEO of The GNI Group for 15 years.

He received a bachelor's degree in business and a master's degree in business administration from Texas Christian University.
